PROVISIONAL ELECTION OF SPECIES

COMMISSIONER FOR PATENTS
ALEXANDRIA, VA 22313-1450

SIR:

In response to the Election of Species requirement dated December 14, 2004, the Applicant provisionally elects with traverse Species V corresponding to Figure 9 and identifies Claims 1 and 3-5 as readable on the provisionally elected species. Claim 1 has been identified as being generic.

The Applicant respectfully traverses the election requirement for several reasons.

First, the outstanding Official Action merely includes the conclusory statement that "[t]his application contains claims directed to ... patentably distinct species ..." without stating any basis whatsoever in support of such a finding. This is in violation of MPEP §816, which states:

The particular reasons relied on by the examiner for holding the inventions as claimed are either independent or distinct should be concisely stated. A mere statement of conclusion is inadequate. The reasons upon which the conclusion is based should be given. ...

Application Serial No.: 10/690,572
Response to Election of Species Requirement
Dated December 14, 2004

In the absence of any annunciated basis, it is respectfully submitted that the PTO clearly has not carried forward its burden of proof to establish distinctness.

Secondly, MPEP § 806.04(f) requires:

Claims to be restricted to different species must be mutually exclusive. ..

The outstanding Official Action fails to address in any way whether the pending claims recite mutually exclusive characteristics and this failure provides a further basis for traversing the election requirement.

Finally, MPEP § 803 states:

... If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area. Accordingly, the Applicant also respectfully traverses the outstanding Election requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

Application Serial No.: 10/690,572
Response to Election of Species Requirement
Dated December 14, 2004

Therefore, it is respectfully requested that the requirement to elect a single species be withdrawn, and that a full examination on the merits of Claims 1-12 be conducted.

Respectfully Submitted,

MAIER & NEUSTADT, P.C.
